

F4 Technical Advisory Memo

No: TAMF4-2021-006

Date: April 15, 2021

Subject: Ligier Technical Bulletin F4-33 Front Axle Update

Attached is the Ligier bulletin describing a change in specification for the front axle assembly. The original parts are no longer available and are superseded by the parts listed in the bulletin.

The newly released parts are all Type 1 and may not be modified. They must be installed as specified by Ligier.

This is an optional upgrade. The prior two versions and the new parts will all be compliant at tech.
