Re: Crew Member Clarification

Date: October 19, 2021

To further expand on what was listed in the USGP Driver & Team Notes regarding crew members “over the wall,” please read the following clarification.

For this event, there will be a maximum of two (2) crew members per car admitted to pit lane.

When a pit stop is being made, only two crew members may work on the car at a time, no matter how many crew members represent your team as a whole.

One of those crew members working on the car shall be responsible for the car’s safe entry and release. Per the FIA regulations, a race event covers all practice, qualifying and race(s) throughout the event.
