Re: Track Limits

Date: October 21, 2021

---

Track limits are defined in Article 19.3 of the 2021 F4 U.S. Championship Sporting Regulations.

During the practice session, drivers will be warned if they exceed track limits. Excessive violators may be penalized which could include a drive-thru penalty.

During qualifying and race sessions, drivers' lap times may be disallowed if they exceed track limits. After the second time a driver's lap has been disallowed, the Chief Timekeeper will stop scoring the driver.
